

Lo - Ball, Can't Get Me Down

It's over
You told me
And you don't wanna know me
Alone now
I know that
You're never gonna get me down
That's not the way nice girls behave
Oh yeah I know you told me
It's not your choice, I have a voice
I guess you just don't hear me
Don't try to tell me that it's not allowed
That same old story that's been going 'round
I'm out of bounds
It's over
You told me
And you don't wanna know me
Alone now
I know that
You're never gonna get me down
Can't get me down
Is this the way nice girls should play
I gotta say I don't care
I'll make you see something in me
You never knew was there
What will it take to make you understand
Our differences don't threaten what you planned
Well here I am
It's over
You told me
And you don't wanna know me
Alone now
I know that
You're never gonna get me down
Can't get me down
What will it take to make you understand
That I won't break and I don't give a damn
Well here I am
It's over
You told me
And you don't wanna know me
Alone now
I know that
You're never gonna get me down
Can't get me down
Can't get me down
Can't get me down
Can't get me down
