

# Lobo, Come Looking For Me

(Lobo)

If you ever feel like  
You need a friend in the night  
Cos he ain't treating you right  
You come looking for me

And if you ever should doubt  
What his love is about  
If the flame goes on out  
Come looking for me

Come looking for me  
I'll always be close by  
I've been waiting for you  
Since we said goodbye  
If true love's what you need  
To set your loving free  
Come looking for me  
Come looking for me

When the time finally comes  
For you to go and run  
Let your heart be the one  
That comes looking for me

Cos your heart couldn't find  
A truer love than mine  
So baby take the time  
To come looking for me
