

Lobo, I'd Do It Again

(Kent LaVoie)

I finally sorted things out in my mind
And kinda got myself back together again
For a few months there I didn't know where I was
Much less where I'd been
Your leaving me hit me hard
But really does me in
Is I'd do it again

It's not like I could stop it
Even if I wanted to
That's how strong my love is for you
Even if it don't work out
After movin' back in
I'd do it again

I finally sorted thing out in my mind
And kinda got myself back together again
