

# Lobo, Over

(Billy Aerts / Don Goodman / David Winter)

Lonely, I've been so lonely  
Not a trace of love around  
Just a solitary shadow

Empty, I've been so empty  
With no one to share my dreams  
And no one to share my pillow

But now it's over  
All the long and lonely nights  
Are finally over  
Since you came into my life  
And now I'm over  
All the hurt and the loneliness  
And all of the hours  
I spent talking to myself  
Are finally over

Wonder, sometimes I wonder  
How I ever got this far  
Without your love beside me

So long, I've waited so long  
For someone to finally be  
The missing part of me
