

Lobo, Still In Love

(Kent LaVoie)

I get through the day I go on
My own way
But I don't really know what to do
Night comes to pass and with it the past
And all of my past is you

And I'm still in love with you
I'm still in love with you

She hears my dreams she
Knows what they mean
But she must have dreams of her own
It's not that she means nothing to me
Or that I'd rather be alone

It's just that I'm still in love with you
I'm still in love with you

I'm back at the start chasing your heart
But only one part is true
I'm still in love with you
Yes I'm still in love with you

You call me at night to see if I'm alright
But you want to know if she's here
You don't want her here and
You don't want me there
Now baby do you still care

Could it be that you're still in love with me
Are you still in love with me
