

Local H, No Problem

I'd Like to think that it's out of here
You'll blow into town maybe twice a year
To Check on me to see if I'm still here
and make me think that it's my idea

and everything in the world is free
I come to you so easily
I never felt a sense of meaning
you that i refuse to see

You had me but its over now x3
It's No Problem x2

Im not really sure why I let you win
or even why I let it begin
I've always been an easy in
I'm easy out the door again

I know it's only because your down
that you ever wanted to come around
Just a little secret in a little town

You had me but its over now x2
You'll get my attention again somehow

It's No Problem x4
