

Lola Angst, The Grave Of Our Love

I'm sure I will not survive
Won't find the way thru
Because no beauty or no time
Will help me to get over you
So I'm digging my grave
And hope that even one day
You will lay down near me
Even if we will be old and grey
So we'll spend
Millions of years together
Without pain and tears
So I'm digging our grave
And I'm waiting for you
Our love will be safe

The grave of our love
Will always be holy for me
I will always be there for you
Lying on our grave
Whatever you do

Just open my grave
And let your love in
So it could be
The start of the end
And the endless beginning
You can call me a fool
You can call me mad
But I have no more chance
To live like a stupid sad
You were my heroin(e)
But you had your own
So I hope you will find
Your way back to
Your real home
