

Lolo Zouai, Don't Buy Me Flowers

Don't buy me flowers
They just give me headaches
Please don't be like the others
No, don't buy me flowers

You should know now
You could waste my time, but you don't know how
And I could change my mind and let you go
Let you go
But somehow
You always spend the night

I don't wanna wake up to
A whole 'nother side of you
You're so shiny, new
I think I like us how we are (Like us how we are)
Won't have to watch the petals fall, fall

So don't buy me flowers (Flowers)
They just give me headaches
Please don't be like the others (Others)
They all do the same thing when they try (They try)
To win my heart, funny they all think that it's so smart (Smart)
What a waste (What a waste), throw them away (Throw them away)
Can't fix a headache with another empty vase
Don't buy me flowers

We could chill on the sofa
Eat so good, now we in a food coma
Watch a show 'til it's over
We could hit the MoMA, long as we get boba
On the way, hey, on the way
Take me out
Then I could spend the night, oh, but

I don't wanna wake up to
A whole 'nother side of you (Side of you)
You're so shiny, new
I think I like us how we are
Won't have to watch the petals fall, fall

So don't buy me flowers
I don't need the headache
Please don't be like the others, no
They all do the same thing when they try (They try)
To win my heart, it's funny they all think that it's so smart (Smart)
What a waste (What a waste), throw them away
Can't fix my headache with another empty vase (Don't)

No, don't buy me flowers
Don't buy me flowers, no
Don't buy me flowers
