

# Londonbeat, That's How I Fell About You

If time stood still  
And the universe should cease to spin around  
If the stars tumbled to the ground  
You ask me now  
Would I walk through fire and rain for you somehow  
You know that I would, yes I would

That's how I feel about you  
That's how I feel about you  
Call it love I won't deny, it's true  
That's how I feel about you

If time stood still  
And the earth is burning, falling down to die  
Your time to stop and wonder why  
You ask me how  
I would spend the final moments of my life  
Right by your side I will die

That's how I feel about you  
That's how I feel about you  
Call it love I won't deny, it's true  
That's how I feel about you

Oh, naked I stand before the master of moments  
When destiny is due  
Cause baby I know this love is more than a moment  
And that's how I feel about you

You ask me now  
Would I walk through fire and rain somehow  
You know that I would, yes I would

That's how I feel about you  
That's how I feel about you  
Call it love I won't deny, it's true  
That's how I feel about you
