

Lonestar, No Greater Love

No greater love
No higher call
The angels can sing but they don't know it all
Heaven may have streets made of gold
But they don't have you like I have you to hold
And like a prayer, you're everywhere
That's how I know there's

Chorus
No greater love
When it's just you and me
That's how it's meant to be
And I know there's no greater love
We'll always be together
On both sides of forever
I know there's no greater love

The touch of your fingers
On my skin
I want to lay down beside you again
The taste of your lips
Pressed against mine
Lost in this moment
Way beyond time
And like a prayer, you're everywhere
That's how I know there's

Chorus

I would lay down my life for you
You would do the same for me
I know it's true
With every breath I breathe
Baby I believe

Chorus

No greater love
