

Lonewolf, A Cold Winter's Day

Time waits for no one
and you're so helpless on your way
Got to show you what life is
and never lead you astray

Bridge: So come on, please, take my hand
and come along with me
together we will find out
what life can be

Refrain: On a cold winter's day
I'll let the sun shine again for you
On a cold winter's day
I'll break the mightiest ice for you
I'll make it, I'll make it
I'll make it for you

Life can be so easy
when you first found the sense
There are people, they take care of you
not like these so called friends

Bridge / Refrain
