

Lonewolf, Dusty Road

There's a man in the factory, working from 9 to 5
livin' just a normal life comes home in the evening, watching then TV
where's the sense, can you tell me ?

Bridge: Stand up and go your way
don't waste every day

Refrain: Sun goes down, time goes on
make your way and your game is won
don't think about this dusty road
Into the dark the day will come
you'll be free, dust will be gone
then you will leave this dusty road
this dusty road

There's an old lady, lost her faith in truth
hopes are gone, there's no way to chose
standing by the window, looking into the rain
thinkin"bout her sorrows and her pain

Bridge: Come and free your mind
don't let it you entwine

Refrain
