

Longpigs, Bonus Track

Good to heart
Is sleep at night
Hushing all your life
Nice to have you near to me
Good to feel your sighs
But one of these days
You're sure to be gone
And I'll have to carry on
Without You
It's nice to watch you sleep so deep
Damp and gentle there
And I almost called you baby now
Lick and smile your head
But how can I trust
You're really in love
And I'll have to carry on
Without you
So shut off your mind
And sleep my love
Drift and play and dream
Tomorrow is too near my doll
Tell me where you've been
Cos one of these days
You're sure to be gone
And I'll have to carry on
Without You
Without You
