

# Loraine McFarland, Do You Remember Me

## Verse 1

- Do you remember
- How things use to be
- Nothing really mattered
- The way it should be
- Somehow I still weren't complete
- Nothing felt right to me
- Now since im gone my life has changed
- I'm not who I use to be

## Chorus

- Do you remember me
- You dont
- And I don't really care
- You just brought me down
- Im gone
- And im not coming back
- So just forget me

## Verse 2

- Forget my niceness
- Forget my good deeds
- Even forget my name
- And don't remember me
- Cause im tired of living lies
- Pretending to be happy
- I forgot who I was
- So don't you dare cry for me

## Coda

- My life has turned around
- Nomore trying to turn it around
- I'm the truest thing I ever found
- Do you remember me
- You dont
- And I don't really care
- You just brought me down
- Im gone
- And im not coming back
- Do you remember me
- You dont
- And I don't really care
- You just brought me down
- Im gone
- And im not coming back
- So just forget me
