

Loraine McFarland, Hopeless

Verse 1

- There is nothing left
- Except some unspoken words
- Left gone unheard
- I am haunted by the thought
- That you
- Still can't see
- But yet still want me
- I really wish you'd realize
- There's no place that you'd rather be
- You're always getting hurt
- By other girls
- And you should know by now
- I won't hurt you
- But your not letting me show you

□ Chorus

- I could be everything you ever wanted
- Give it all till I drop dead dying
- But no you push me away
- And my love
- That I had
- Begins to fade away
- Begins to fade away

□ Verse 2

- Don't know why I should
- I'm starting to think that this is hopeless
- And that you will never see
- Until it's too late and theres nomore me
- But don't forget and I might
- Come back to you again someday
- For now
- I'm letting go
- Because you still won't let me show you

□ Coda

- I could be everything you ever wanted
- Give it all till I drop dead dying
- But no you push me away
- And my love
- That I had
- It's sad it's coming to this
- Even though that we had kissed
- Yeah we had kissed
- I wan't you here in my life
- Right here always by my side
- Please don't move on, don't move on
- I hope you don't move on
- Yeah yeah
- I wan't you here in my life
- Right here always by my side
- Please don't move on ,don't move on
- I pray you don't move on
