

Loraine McFarland, Mystery

Verse 1

- I feel like im in this love all alone
- It's like im in a war□
- But what am I fighting for
- You keep building up these walls
- That I can't seem to break through
- But what the hell, i've got nothing left to lose
- There ain't no love here, it is just you

□

□Chorus

- You were everything to me
- And I wanted you so badly
- I'm like a child that wanted something so much
- When I got it, it turned into dust
- Now I question if I should stay
- Or just quit, turn around and walk away
- Would you notice or remember me
- Because our love
- Our love was a mystery

□Verse 2

- I've been down this lonely road before
- But I guess this is how my ex felt when I was your age
- Yet I don't wanna hurt you like he went and hurt me
- I still have love for you
- But you gotta let me in
- Don't be afraid like me and let love pass you by

□Coda

- I wanna be there when you need me
- Wanna see what you see
- Make your dreams come true
- But gotta just trust me
- Don't question my love
- I'd do it all again
- All for you
