

# Lord Belial, Belial-Northern Prince Of Evil

(lyrics by Dark, music by Dark and Vassago)

In the beginning of all time, when I was born  
a shadow crawled all over me  
the shadow, shadow of the northern son... which filled me with darkness and  
majestic hatred  
Join the darkness of the northern son ...Belial  
I stared onto the dark prince of evil, enwrapped in a black gown a great  
malignant shape...with a dark voice as cold as ice  
My blood froze when I stared onto this prince of evil ...Belial  
Nowadays, thousands of years later I have become one with the darkness in  
this mighty kingdom, I obey Belial  
He is the lord over all living creatures He shall rule for eternity He is the  
master of masters ...Belial
