## Lord Belial, Belial-Northern Prince Of Evil

(lyrics by Dark, music by Dark and Vassago)

In the beginning of all time, when I was born a shadow crawled all over me

the shadow, shadow of the northern son... which filled me with darkness and majestic hatred

Join the darkness of the northern son ... Belial

I stared onto the dark prince of evil, enwrapped in a black gown a great malignant shape...with a dark voice as cold as ice

My blood froze when I stared onto this prince of evil ...Belial

Nowadays, thousands of years later I have become one with the darkness in this mighty kingdom, I obey Belial

He is the lord over all living creatures He shall rule for eternity He is the master of masters ...Belial
