

# Lordi, Bite It Like A Bulldog

Caught red handed  
Blood drops cover your face  
The gun still smoking in your hand

You did not do it  
The rest of the world is always wrong  
As you see it from where you stand

Always try to find another  
Fool to sacrifice your mother  
They probably know that there in your game

Anybody really can lose  
It's fine as long as it wont be you  
You let the dice decide who's to blame

Bite it, Bite it like a bulldog  
Bite like a Bulldog  
To the Bone, Never let it go  
Bite it, Bite it like a bulldog  
Bite it like a Bulldog  
Freaking out, Foaming at the mouth

You wont take no responsibility  
For anything you say or do

Friend or foe it don't matter  
Anyone can go  
As long as it wont be you

You leave a trail of dead behind you  
Your dead wrong but you are giving in  
To deny the truth you'll make it untrue  
Just saying it-

Bite it, bite it like a,  
Bite it, bite it like a bulldog  
Bite it to the bone  
Never let it go
