

Lordi, They only come aut at night

You know you saw them but no-one ever listens
They'll be long gone by the time the sun has risen
You feel 'em lurking, hear 'em howling in the shadows
Wreaking haboc on your perfect world
They are the tricking trolls
They got the bell that tolls
Flash at the edge of your sight
They only come out at night
They only come out at night
They only come out at night
They only come out at night
The shadows breathe with a venom like no other
A silent evil where there shouln't be another, no no
I feel 'em lurking, hear 'em howling in the shadows
Wreaking haboc on your perfect world
They are the tricking trolls
They got the bell that tolls
Flash at the edge of your sight
They only come out at night
They only come out at night
They only come out at night
They only come out at night
[Solo]
Don't know what's at stake
I think they're right beside me
I gotta stay awake
And keep them all from biting
They only come out at night
They only come out at night
They only come out at night
They only come out at night
They only come out at night
They only come out at night
They only come out at night
They only come out at night
They only come out at night
They only come out at night
They only come out at night
They only come out at night
They only come out at night...
They only come out at night...
