

# Lordi, Where's the Dragon

Now you see the dragon  
You told everyone you had  
You're too out of bragging  
Oh sir you are so bad  
Wanna see the head of the leviathan  
That you said you probably slayed  
Show me where's the belt of the mighty Kong  
And the t-rex that you tamed  
Take me to your wonder vault  
Where you keep your spoils and your treasures  
Yeah you stumble to our hold  
I can see you crack under pressure  
You're acting like you like me  
But you stab me from behind  
What's the reason you defy me  
Oh you're such a friend of mine  
Where's your dragon now?  
So where's your dragon, where's your dragon now?  
Amen, have you seen it?
