

Loreena McKennitt, The Christmas Bells Carol

In the silence of the night
When the snow lies soft and still
You can see a magic light
And hear the ring of Christmas bells
Though the night seems long and dark
It is the earth just gone to sleep
The stars that dot the sky above
Hold you in their precious keep
So close your eyes and come with me
The Christmas bells will lead you home.

Now with song we fill the night
While magic dances in the light
To wish you now and all the year
The joy that comes with Christmas cheer
Hear our voices fill the air
To drive the winter's cold away
And so our hearts with all will share
The love that comes with Christmas Day
The love that comes with Christmas Day
The Christmas bells will bring you home!
