

Loretta Lynn, Have Mercy

Have mercy on me baby
I'm down upon my knees
Have mercy on me baby
I'll do just as you please
Well you know that I love you
I'll put noone else above you
Have mercy on me baby, have mercy

Have mercy on me baby
Please have a little heart
Have mercy on me baby
You're tearing me apart
The way that you do me
You know you done got to me
Have mercy on me baby, have mercy

She's got you hypnotized
And your brain is paralyzed
You know she's only playing with you
Like a puppet on a string
Remember just one thing
She can't love you like I do, no

Have mercy on me baby
Please give this heart a break
Have mercy on me baby
I'll do just what it takes
You know you won't regret it
So hey there now I said it
Have mercy on me baby, have mercy

Have mercy
Have mercy on me baby
Have mercy on me baby
Have mercy on me
Have mercy on me baby
Please have mercy on me
