

Loretta Lynn, I Love You I Love You

(Don Gibson)

With each day I miss you a little bit more I love you I love you
I just can't forget won't try as before I love you I love you
With mem'ries that somehow won't die the loneliness won't let me try
Oh the hours go slowly even I seem to cry I love you I love you
[harmonica]
Oh with mem'ries that somehow won't die...
I love you I love you
