

# Loretta Lynn, What Now?

If it's over between us, what now  
Can't forget you 'cause I don't know how  
Oh, what will I do, where do I go from you  
If it's over between us, what now

If my heart's been deserted, what now  
Can't I stop it from beating somehow  
If there's no more you and I  
That I'll want to die.

If it's over between us, what now  
I keep asking where did our love go  
You won't tell me and I sure don't know  
All I know is what's left is our love.

Worse and dead if it's over between us, what now  
If it's over between us, what now?
