

Lorrie Morgan, Hand Over Your Heart

When you take the love
that's property of somebody else
That constitutes a capital crime
But stealing kisses ain't what this is,
I'm just helping myself
And taking what's rightfully mine

chorus

(Hold it right there)
This is a stick up baby
Hold it right there
Hand over your heart
I don't want to hurt you babe
Just give me your love
Hand over your heart
Hand over your heart

If you want to run, go on run
You're already caught
My loving I'm aiming at you
Well don't jump the gun,
I'm the one, who's calling the shots
And I said freeze baby don't even move

chorus

Now I feel your body tremble
It's such an easy mark
But you're the one who wanted to go walking
Walking after dark
