

# Lorrie Morgan, My Night To Howl

There's a good time moon on the rise tonight  
I can hear the call of the city lights  
There's a time to work, and a time to play  
I've worked all I'm gonna work today  
Ain't no stopping me now  
It's my night to howl

This is my night to set the town a-rocking on it's heels  
This is my night to go crazy just to see how it feels  
I'm gonna dress up, gonna let my hair down  
Like a wild cat on the prowl  
This is my, my, my night to howl

Turn me loose, I'm a dancing fool  
That band's got a bass drum that kicks like a country mule  
When the town shuts down and it's time to go  
I'm gonna take this party home  
Ain't no stopping me now  
It's my night to howl

This is my night to set the town a-rocking on it's heels  
This is my night to go crazy just to see how it feels  
I'm gonna dress up, gonna let my hair down  
Like a wild cat on the prowl  
This is my, my, my night to howl

This is my night to set the town a-rocking on it's heels  
This is my night to go crazy just to see how it feels  
I'm gonna dress up, gonna let my hair down  
Like a wild cat on the prowl  
This is my, my, my night to howl
