

Los Campesinos, Heart Swells/Pacific Daylight Time

Black holes
And unraised moles
Let's just call them freckles
Haircut
Heart left
Happy on the west coast
Coat fell
Heart swells
Draped across the sofa
Sleep well
I feel you've ruined me forever
I don't want to sound trite but you were perfect
The way you look could seriously make nature dysmorphic
I wish that you would kiss me 'til the point of paralysis
The way I flail my arms in front of you, it just embarrasses
I'll never turn my body clock back
And think about the things I'm glad I left out
Some things are best left unsaid.
