

Los Lobos, Round And Round

(David Hidalgo/Louie Perez)

Round and round and up and down and round and round and
Rollin', rollin' I don't know
Never ends and never ever wants to let me go

When over you comes waves of blue
Have no fear
'Cause I'll be right here beside you

Round and round and up and down and round and round and
Dizzy, dizzy 'till I can't see
Stumbling in the dark
Reaching out, reaching out
For someone to hold me

I'll be your eyes to give you sight
If you fall
If you do fall into that night

Round and round and up and down and round and round and
What will I do if I can't see you?
I can't touch you
I can't even hear you calling my name

Heart to heart
Soul to soul
Heart to heart we can't be wrong
Soul to soul in this small corner of the earth
We can be strong
