

# Los Lonely Boys, Once Again

I wanna feel your love once again  
I wanna hold you again like before  
When we love each other  
Baby like no other  
So darlin' if you love me  
I'll take care of you  
And you know it's true

I got to know if you'll ever desert me  
Just like you did when you left without me  
You broke my heart  
Now it's torn apart  
So if I give you one more try  
Will you ever make me cry

Girl I, I need to know  
If you'll ever feel the same  
'cause I, I never changed  
My feeling for you

Music

Girl I need to know  
If you'll ever feel the same  
'cause I, I never changed  
My feeling for you

Now that you know how I feel about you  
I gotta know how you been without me  
'cause I wanna know  
I feel I can't move on  
'cause baby I love you
