

Los Lonely Boys, Once Again

I wanna feel your love once again
I wanna hold you again like before
When we love each other
Baby like no other
So darlin' if you love me
I'll take care of you
And you know it's true

I got to know if you'll ever desert me
Just like you did when you left without me
You broke my heart
Now it's torn apart
So if I give you one more try
Will you ever make me cry

Girl I, I need to know
If you'll ever feel the same
'cause I, I never changed
My feeling for you

Music

Girl I need to know
If you'll ever feel the same
'cause I, I never changed
My feeling for you

Now that you know how I feel about you
I gotta know how you been without me
'cause I wanna know
I feel I can't move on
'cause baby I love you
