

Lost Frequencies, Melody (feat. James Blunt)

hey melody
every night you play me something sweet
and when I'm down
you always change the key
I need you now
my heart has lost the beat
and I'm counting on your love
hey melody
we both could use a reason just to smile
so let me be your harmony tonight
every note you hit cuts into me

so let me hear your love, sing
so let me hear your love, sing
let me hear your love, sing
so let me hear your love, sing
so let me hear your love, sing
let me hear your love, sing

hey melody
every night you play me something sweet
and when I'm down
you always change the key
I need you now
my heart has lost the beat
and I'm counting on your love
hey melody
we both could use a reason just to smile
so let me be your harmony tonight
every note you hit cuts into me

so let me hear your love, sing
so let me hear your love, sing
let me hear your love, sing
so let me hear your love, sing
so let me hear your love, sing
let me hear your love, sing
