

# Lost Frequencies, Melody (feat. James Blunt)

hey melody  
every night you play me something sweet  
and when I'm down  
you always change the key  
I need you now  
my heart has lost the beat  
and I'm counting on your love  
hey melody  
we both could use a reason just to smile  
so let me be your harmony tonight  
every note you hit cuts into me

so let me hear your love, sing  
so let me hear your love, sing  
let me hear your love, sing  
so let me hear your love, sing  
so let me hear your love, sing  
let me hear your love, sing

hey melody  
every night you play me something sweet  
and when I'm down  
you always change the key  
I need you now  
my heart has lost the beat  
and I'm counting on your love  
hey melody  
we both could use a reason just to smile  
so let me be your harmony tonight  
every note you hit cuts into me

so let me hear your love, sing  
so let me hear your love, sing  
let me hear your love, sing  
so let me hear your love, sing  
so let me hear your love, sing  
let me hear your love, sing
