

# Lostprophets, Heaven For The Weather, Hell For

I haven't lost the way I feel  
I didn't look away this time  
the blood that's filling up these veins  
doesn't ever feel like mine  
the shadows never seem to comfort me (I don't wanna feel this way)  
how many little lies will make us see (I don't wanna feel this way)  
hide the truth from my eyes  
I will never know, I will never know  
tear the sun from my skies  
I will never know, I will never know  
I didn't want to cross the line  
I didn't want this on my mind  
but through all the things I've seen  
I'm still a part of this machine  
the shadows never seem to comfort me (I don't wanna feel this way)  
how many little lies will make us see (I don't wanna feel this way)  
hide the truth from my eyes  
I will never know, I will never know  
tear the sun from my skies  
I will never know, I will never know  
hide the truth from my eyes  
I will never know, I will never know  
tear the sun from my skies  
I will never know, I will never ever ever ever know
