Lostprophets, Push Out The Jive, Bring In The Lo

Inside, we try, take that fast time Can't you look through broken windows, We know you show can't complete you, Can't you look through broken windows, It's no good, just go on (it's no good)

Another chance to go, Another misplaced reason, Another way to look at falling apart, Another bit of luck, Another wasted season, Another chance to watch it all become one

Can't we try to fall back down through, Can't you look through broken windows, This town got no time to wait for, Can't you look through broken windows, Its no good, just go on (it's no good)

Another chance to go, Another misplaced reason, Another way to look at falling apart, Another bit of luck, Another wasted season, Another chance to watch it all become one

Become one (woaaaaaaaah), Become one, One, One, One, Become one (woaaaaaaaah)

Another chance to go,
Another misplaced reason,
Another way to look at falling apart,
Another bit of luck (another bit of luck),
Another wasted season,
Another chance to watch it all become one,
One,
One,
One,
One,
One,
One,
One,
