

# Louise Hoffsten, Nowhere In This World

This day was made for you  
There's not a cloud in sight  
No sign or shadow anywhere  
Of the coming night

We've got miles to go  
Before the sunlight fades  
And then we'll find a quiet room  
And draw the shades....

There's nowhere in this world  
I'd rather be  
Than anywhere with you  
Beside me  
But nowhere in this world  
Nowhere I can see  
Could our hearts be as safe as  
They should be

This road is not so long  
That sky is not so high  
Tomorrow's come and gone again  
In the blink of an eye

There's nowhere in this world  
I'd rather be  
Than anywhere with you  
Beside me  
But nowhere in this world  
Nowhere I can see  
Could our hearts be as safe as  
They should be

Then you smile my favorite smile  
The one where time stops....  
Imagine if our hearts could just  
Turn back the clocks

There's nowhere in this world  
I'd rather be  
Than anywhere with you  
Beside me  
But nowhere in this world  
Nowhere I can see  
Could our hearts be as safe as  
They should be
