

# Love is a temple, Love is a temple

Well I love your little smile, every time makes me wild  
Im just a believer, I believe in you and me  
here were walking hand in hand in a bernadotte land  
words sure come easy, carried by the breeze in July  
and I dont mind a litle rain, helps me to find words to explain

Chorus:

love is a tempel, step into my dome  
house full of candless, make it your home  
my gates are wide open, a fine praying time  
stay with me baby me hold you for a while  
holy water from my eyes, coloured by the evening light  
act of love and innocence, hope it never ends  
and I dont mind a little rain, helps me to find words to explain

Chorus

Hope u like it here, my southern heights  
heard the good and bad, the story of my life  
u can stay or u can rise

Chorus
