

Lovex, Guardian Angel (Late Night Version)

Through the darkness and broken glass
I'll come for you if you only ask
And there I'll stand
Just for you

Million miles between our lives
Won't keep us apart from our grieving hearts
Sealed with love
Godspeed, my darling

For your name
I'm calling
For our love
I'm falling on my knees

And if you cry
I'll hold your head up high
I'll be there by your side
I will be your guardian angel

In the garden of lonely love
I'll wait for you 'till the time will come
When I see you smile
Just for me

Love and loss, embrace the pain
You cant hide your tears in the rain
Ill be there
Just wait, my darling

For your name
I'm calling
For our love
I'm falling on my knees

And if you cry
I'll hold your head up high
I'll be there by your side
I will be your guardian angel

And if you cry
I'll hold your head up high
I'll be there by your side
I will be your guardian angel
I will do the things that I can
To light your life and see you smile
It breaks my heart in two
