

# LP, Golden

If it wasn't love, then it wasn't love  
Are we really done, is there more to come?  
If it's not enough, then it's not enough  
If it wasn't us, then it wasn't us

There's something about when you know it (you know it)  
Don't let it be gone in a moment (a moment)  
Don't try to be cool, baby, show it (just show it)  
Just own it (own it)

We are golden  
We're not broken  
We are golden  
We're not broken  
We're golden

When you're coming back from a heart attack  
All that history, all that chemistry  
From the what could be, to the what are we  
It's so deep

There's something about when you know it (you know it)  
Don't let it be gone in a moment (a moment)  
Don't try to be cool, baby, show it (just show it)  
Just own it (own it)

We are golden  
We're not broken  
We are golden  
We're not broken

Whooooa  
Again and again and again and again  
Whooooa  
Again and again and again and again

Oooh, don't get broken before it gets beautiful  
Oooh, don't get broken before it gets beautiful  
Oooh, don't get broken before it gets beautiful  
Eh eh  
Oooh, don't get broken before it gets beautiful  
You're so beautiful

We are golden  
We're not broken  
We are golden  
We're not broken

Whooooa  
Again and again and again and again  
Whooooa  
Again and again and again and again

We're golden
