

LP, One Like You

One Like You

Right on time as I was thinking I'm nowhere
I caught your vibe and you were takin' me somewhere
And I can't wait

Don't hesitate

Hey, I can't hide it my face says what's inside

And you take me every time

Just when I think the feeling's gone

I can't let go, I still belong

To a love that changes everything

You make me feel you make think

To love love someone like you

To love

[They'll] never be one like you

One like you

I can't change the way the way you're making me change yeah

Well that's ok, it's in the things that you don't say

But baby please

Please believe

Me I can't fake it

It's easy

I've seen you naked

Believe me

We're gonna make it

Just when I think the feelings gone

I can't let go I still belong

To a love that changes everything

You make me feel you make think

To love love someone like you

To love

[They'll] never be one like you

One like you

If it's gone too far

When it's gone too far

Then it's gone too far

To be gone

If it's what I want

And it's what you want

If it's what's we want

Then it's on

Just when I think the feeling's gone

I can't let go I still belong

To a love that changes everything

You make me feel you make think

To love love someone like you

To love

[They'll] never be one like you

One like you
