

Lucas Grabeel, You Know I Will

There's a hill we gotta climb
There's a treasure we must find
The two of us as friends
We're ready to take on the world

We'll see who can touch the sky
We'll see who can jump that high
Today is an adventure
We're ready to take on the world

And through all the ups and downs
I'll always be around
You know if nothing goes your way
When nothing goes your way

You know I will
I stand between you and your darkest fears
You know I will
I'll be the shoulder for your fallen tears
You know I will
I'll be behind you till you're in the clear

When the sunlight shows its face
You and me we take our place
We're legendary heroes
And ready to take on the world

So from there the chase begins
If we go we both will win
When we're having fun
There's no one else in the world

And if you slip and fall off track
I'll carry you on my back
You know when nothing goes your way
When nothing goes your way

You know I will
I stand between you and your darkest fears
You know I will
I'll be the shoulder for your fallen tears
You know I will
I'll be behind you till you're in the clear

And through all the ups and downs
I'll always be around
You know when nothing goes your way
When nothing goes your way

You know I will
I stand between you and your darkest fears
You know I will
I'll be the shoulder for your fallen tears
You know I will
I'll be behind you till you're in the clear

You know I will
