

# Lucas Prata, Love Of My Life

Lucas:

Remember the 1st conversation  
both of our hearts revelation  
i knew what i found, You knew what you found  
and u could feel it all around

Reina:

the sun bathed us in the purest light  
loneliness lifted from my life  
the road ahead seemed so divine  
and i believe we'll shine

Both:

like fireflies and fairy tales  
like shooting stars and wishing wells  
like happy endings rising after the storm  
i know we were meant to fly  
i know theres a reason why  
we held on to the dream inside  
amd never let it go  
i know love can sometimes hurt  
but i have faith that we will work  
im trusting in the universe this time  
i got the love of my life

Reina:

remember the sweet night we first kissed  
so much emotion flowed through this  
a moment of passion it still really is  
and knew what would become of this

Lucas:

a peaceful feeling so comforting  
we both said 'i love u' so tenderly  
u knew it was gonna be forever  
together forever you and me

Both:

like fireflies and fairy tales  
like shooting stars and wishing wells  
like happy endings rising after the storm  
i know we were meant to fly  
i know theres a reason why  
we held onto the dream inside and never let it go  
i know love can sometimes hurt  
but i have faith that we will work  
im trusting in the universe this time  
i got the love of my life

Lucas:

perfect love story  
when i wake every morning  
and i see ur face

Reina:

reserving this feeling  
im standing and kneeling  
because my soul is receiving

Lucas:

the best gift in life

Both:

like fireflies and fairytales  
like shooting stars and wishing wells  
like happy endings rising after the storm  
i know we were meant to fly  
i know theres a reaon why  
we held on to the dream inside  
and never let it go  
i know love can sometimes hurt  
but i have faith that we will work  
im trusting in the universe this time

I got the love of my life!
