

# Lucero, She's Just That Kind Of Girl

Running down a busy street  
She was drunk when she kissed me  
I know better than to be  
Falling in love so easily  
She's just that kind of girl  
That kind of girl  
I think one day she'll be my wife  
I think I asked a hundred times  
Asked the first night that we met  
A hundred and one and she'll say yes  
She's just that kind of girl  
That kind of girl  
You can't wait around  
You can't wait around  
I'll come clean  
I want you to wait for me  
We'll just have to wait and see  
About the things between her and me  
I know better than to be  
Falling for her kisses in the street
