

Lucero, Sweet Little Thing

Sweet little thing
A constant in my thoughts
Sweet little thing
And you tell me that I can't change
And you say I'm such a boy
Somehow we both got lost
Your friends say I'm no good
Sweet little thing
Sweet little thing
They never understood
The way I'd stay up all night
The way I'd tremble in your arms
A kiss'll make you close your eyes
A kiss won't make you stay
Please don't walk away
I like to know you're there
Though there's nothing left to say
Please don't walk away
Sweet little thing
Maybe I ain't no good
Sweet little thing
I ain't done what I should
I let'em think what they want
But all I want is you
