

# Lucero, The Only One

she never says hi to me no more  
and that's a pretty good way for her to even the score  
things went bad, i guess it don't mean much  
she used to say i was the only one  
she never says hi to me no more  
she never even looks my way no more  
and i can hear her talking through the bedroom door  
she's not here for me, cause we're all done  
i know damn well i was the only one  
i know damn well i was the only one  
she never even looks my way no more  
she never even looks my way no more
