

Lucky 7, Ca Girl

With the red top down
Starlit sky
Pretty little blue gleam in her eyes, she's my
California girl

I saw her about a month ago
Long blonde hair and turned up nose
Her eyes shine like a diamond ring
She looked at me and I gave her a smile
Asked her if we could hang for a while
Just cruise in my caddy with me

'Cause she's so fine
And I wanna make her mine
I hope tonight I will see her
With the red top down
Starlit sky
Pretty little blue gleam in her eyes, she's my
California Girl
Red top down
Starlit sky
Pretty little blue gleam in her eyes, she's my
California Girl

Summer time is always the best
Hangin out chillin' with my friends
Drinkin' juice, making memories
But summer time will never be the same
Until that smile falls on me again, oh yea
Do you know what she means to me

'Cause she's so fine
And I wanna make her mine
I hope tonight I will see her
With the red top down
Starlit sky
Pretty little blue gleam in her eyes, she's my
California Girl
Red top down
Starlit sky
Pretty little blue gleam in her eyes, she's my
California Girl

Did she bothers me when I can be, the by your side
Man it's last forever, why seat alone
When we can be together

With the, red top down
Starlit sky
I hope tonight, I will see her 'round

With the red top down
Starlit sky
Pretty little blue gleam in her eyes, she's my
California girl
Red top down
Starlit sky
Pretty little blue gleam in her eyes, she's my
California girl

My Clifornia, California, California girl.
