

Lucky 7, Runaway

I don't believe in all the words that I read
I'd be stuck between the lines
Life in the middle is never what it could be
Empty faces mirror mine

So come with me
and we'll drive straight through the night
we'll leave this world behind
Baby, turn up my song is on the radio
Inuendos go anywhere you wanna go
Hit the window and feel the summer wind blow
Everything will be alright
Runaway with me tonight

I don't believe in all the rumors I hear
They'll tear your world apart
Tracing circles doesn't bring us any closer
Falling backwards from the start

So come with me
and we'll drive straight through the night
we'll leave this world behind
Baby, turn up my song is on the radio
Inuendos go anywhere you wanna go
Hit the window and feel the summer wind blow
Everything will be alright
Runaway with me tonight
(Runaway with me tonight)

I don't believe in all the words that I read
I don't believe in all the rumors I hear
They'll tear your world apart

So come with me
Baby, turn up my song is on the radio
Inuendos go anywhere you wanna go
Hit the window and feel the summer wind blow
Everything will be alright
(Turn it up)
Runaway with me tonight
(Turn it up, my song is on the radio, turn it up)
Runaway with me tonight
(Turn it up, my song is on the radio)
