

# Lugnut, Growing Up

I'm sick of all the things that come with growing up  
take responsibility they say  
your futures looking up  
so many different ways to live your life these days  
but don't be so afraid  
with God things will be ok  
through the years I've concluded that growing up sucks  
you're old enough to know what's right  
you gotta stand  
put up a fight against the world and its beliefs  
you're sick and tired of all their grief  
different problems everyday they just don't go away  
these days are passing by  
fun times are flying by  
through the years I've concluded that growing up sucks
