Lukas Graham, All Of It All

I'm delirious
We been up all night tryna make things right
I'm, running out of words to say
Why so serious
Cause it hurts so bad when you look like that but, I don't wanna turn away

I know you don't want me to go
And you know how to keep me awake
We turn up the heat when it's cold
Baby at the end of the day

I got problems, I got demons
You still love me, for some reason
I know you got me, when I fall
Cause you want all of it all if it all
You got moods but I like seasons
Push and pull me, I ain't leaving
I'm still right here, when you call
Cause I want all of it all of it all

We're yelling and screaming
It's off the wall
Words that we're gonna regret
Then you kiss me and love me to sleep
Pause
Rewind and reset

Cause I know you don't want me to go
And you know how to keep me awake
We turn up the heat when it's cold
Baby at the end of the day

I got problems, I got demons
You still love me, for some reason
I know you got me, when I fall
Cause you want all of it all if it all
You got moods but I like seasons
Push and pull me, I ain't leaving
I'm still right here, when you call
Cause I want all of it all of it all

I know you don't wan't me to go
And you know how to keep me awake
We turn up the heat when it's cold
Baby I don't know what to say

We're in a glass house throwing stones
You know we keep a row full of panes
You don't wanna leave me alone
Baby at the end of the day

I got problems, I got demons
You still love me, for some reason
I know you got me, when I fall
Cause you want all of it all if it all
You got moods but I like seasons
Push and pull me, I ain't leaving
I'm still right here, when you call
