

# Lulu James, Step By Step

I see you  
I see you  
And I collide  
And I collide  
Live it up  
Why don't you live it up  
Live it up  
Why don't you live it up with me

Step by step by step  
With you  
I'll take you step by step by step  
With you

I feel true  
I feel true  
Live it up  
Why don't you live it up  
Live it up  
Why don't you live it up with me

Step by step by step  
With you  
I'll take you step by step by step  
With you  
I'll take you step by step by step  
With you  
I'll take you step by step by step  
With you

Concentrate  
On every breath I take  
Appreciate every step we take

Live it up  
Why don't you live it up  
Live it up  
You got to live it up with me

Step by step by step  
With you  
I'll take you step by step by step  
With you  
I'll take you step by step by step  
With you  
I'll take you step by step by step  
With you
